SCIENCE WITH A VENGEANCE: HOW THE MILITARY CREATED THE US SPACE SCIENCES AFTER WORLD WAR II

Springer. Paperback. Book Condition: New. This item is printed on demand. Paperback. 426 pages. The exploration of the upper atmosphere was given a jump start in the United States by German V-2 rockets - Hitlers vengeance weapon - captured at the end of World War II. The science performed with these missiles was largely determined by the missile itself, such as learning more about the medium through which a ballistic missile travels. Groups rapidly formed within the military and military-funded...

Reviews

I actually started off reading this article ebook. It is written in simple phrases instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Dessie Witting**

Absolutely among the best publication I have at any time go through. It is definitely basic but shocks from the 50 % of the book. I discovered this book from my i and dad advised this publication to find out.
