But then at that time longevity was the rule and not the exception. This process of growing old chronologically is a normal process of life. It occurs in every living thing present in nature. External factors also age nonliving things with the passage of time. A person is called old on the basis of his chronological age. That is why in the 21st century, anyone who has passed the age of three score and 10 will be considered to be old. However, in olden times, people lived for anywhere between 200 to 300 years, and still managed to look youthful and had as much energy as young adults. The slowing down of the aging process is due to many factors, most of which are not present in the 21st century scenario. This includes clean-air, healthy pollution free atmosphere, a good natural diet, lots of exercise, and also a strong disease-free gene line. With the passing of time, the natural good health and comparatively long age enjoyed by man 5000 years ago, has deteriorated a lot. The functional state of...
