His model, consisting of the three core elements point of speech (S), point of event (E), and point of reference (R), has been widely accepted to constitute an appropriate theory for the analysis of the English verbal tenses. Nevertheless, since its first publication, several attempts and proposals for modifications on Reichenbach s model have been presented. In most of these works, the focus is pointed on research on the past tense. A large number of linguists as well as logicians have proposed modifications concerning different temporal extensions of both reference and event time, interpretations of these two times in terms of definite and indefinite points in time, their relation to each other, and, finally, successive reference points in sentence sequences. Therefore, when Alfred Schopf (1987) presents his proposal, it has a basis of a long tradition of earlier works containing different views and proposing different approaches which can either be followed or rejected. In this paper, Schopf discusses three aspects of the use of the English past tense and refines Reichenbach s analysis of this tense. First, Schopf explains the information conveyed by an isolated past tense sentence by interpreting it in terms of a search instruction. Secondly, he contributes to...
