*Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

But it is not a text-book for the pupils, or a book to be merely read during the catechism lesson. Selected paragraphs may indeed be read with profit; but the reading should be accompanied by suitable comment. The consider it advisable, the teacher might dictate certain definitions and principles and have the pupils memorize them; but only after a thorough explanation of each. The lessons supply ready and ample matter on the important subject of vocation, and they have been prepared according to the expository method of teaching catechism, as given in our Elements of Pedagogy and the Catechist s Manual. Although the method is supposed to be followed, still it would be unwise for a brother to give these lessons just as here presented. He ought to assimilate the matter and give it a personal presentation. The teacher s personality, after all, makes the lesson, especially in catechism. If some of the lessons be considered too long, they can be shortened by condensing the expositions or reflections, or by omitting some things of lesser importance. It might be better, however, to divide the lesson into parts as indicated, and to use two catechism periods instead of one.
